

**PRODUCT:**                      **Aquaflo 1000**

**DESCRIPTION:**

Aquaflo 1000 is a concentrated blended liquid corrosion inhibitor and deposition preventative formulated for use in open spray type humidification systems. Aquaflo 1000 offers corrosion protection to all system metallurgies and controls solids deposition on system surfaces, to ensure efficient operation. Aquaflo 1000 is a synergistic blend of ortho and poly phosphates, phosphonate, and azole combined with polymers and terpolymer for scale inhibition.

**SPECIFICATIONS:**

Specific Gravity: ..... 1.095  
Colour:..... Clear Yellow Liquid  
pH:..... 10.3  
Odour: ..... Musty Odour

**APPLICATION AND CONTROL:**

Aquaflo 1000 can be fed neat from the container as received, or diluted as required with softened or demineralized water. Ideally feed should be proportionate to make-up via metered pump injection. Feed rates will vary depending on system type and conditions.

**PACKAGING:**

22 Kg..... Pails  
225 Kg..... Drums  
1100 Kg..... Totes

**PRECAUTIONS:**

- Avoid contact with skin, eyes and clothing.
- For industrial, institutional and commercial use only.
- Not for use in potable water systems.
- Consult M.S.D.S. and product label for additional information before handling.
- Do not freeze.
